Countryman, William D. 420–423 (In Memoriam)
Created wetlands 87–102
Crow, Garrett E. 1–33, 87–102, 186–230
Cymopterus acaulis 359–385
Cymopterus glomeratus, formerly *C. acaulis* 359–385; distribution · map 361; taxonomic treatment 373–374

Diodella 408–413
Diodia 408–413
Downie, Stephen R. 359–385

Established plant taxa 284–329

Flora, wetland 87–102; Maine 117–185
Floristic and biogeographical analysis of the wetlands of the Bolivian Cloud Forest. A. 1–33
Floristic diversity, wetlands 87–102
Floristic reevaluation of a created wetland in Portsmouth, New Hampshire. 87–102
Floristics 186–230
Forest herbs, Massachusetts 239–283
Foster, D. R. 239–283
Freshwater tidal marsh, plant community structure 386–407
Fryday, Alan M. 339–385

Garbary, David J., Carolyn J. Bird, and Kwang Young Kim. ***Sporocladopsis jackii***, sp. nov. (Chroolepidaceae, Chlorophyta): A new species from eastern Canada and Maine symbiotic with the mud snail, *Ilyanassa obsoleta* (Gastropoda). 52–68
Greene, Craig W., Linda L. Gregory, Glen H. Mittelhauser, Sally C. Rooney, and Jill E. Weber. Vascular flora of the Acadia National Park region, Maine. 117–185
Gregory, Linda L. 117–185
Gulf of St. Lawrence 52–68

Hancock County, Maine 117–185
Hedyotis § *Diodella* 408–413
Hibiscus moscheutos (Malvaceae) 414–416
Hinds, James W. 339–385
Hoy, Joann and David M. Burdick. A new native plant for New Hampshire, *Hibiscus moscheutos* (Malvaceae). 414–416 (New England Note)

Ilyanassa 52–68
IN MEMORIAM:
William D. Countryman 1920–2005. 420–423
Michael A. Canoso 1920–2005. 424–425
Invasive species, Maine 117–185
Isle au Haut 117–185

Jahr, Kassandra J. and Garrett E. Crow. Floristic reevaluation of a created wetland in Portsmouth, New Hampshire. 87–102

Kim, Kwang Young 52–68
Knox County, Maine 117–185

Leguminosae 103–104
Les, Donald H. 386–407
Levin, Geoffrey A. 359–385
Li, Jianhua, Suzanne Shoup, and Zhiduan Chen. Phylogenetics of *Betula* (Betulaceae) inferred from sequences of nuclear ribosomal DNA. 69–86
Lichens 339–385
Liverworts 34–51

Maine, bryophytes and lichens on Mt. Katahdin 339–385
Maine, flora of Acadia National Park 117–185; annotated species list 134–185
Maine, new species of seaweed 52–68
Malvaceae 414–416

Massachusetts: alien vascular plants 284–329; bryophytes 34–51; rich mesic forests 239–283
McCauley, Kathleen M. and Garrett E. Crow. The vegetation and flora of Platt Park, Southbury, Connecticut. 186–230
Microrefugia, bryophytes 339–385
Miller, Norton G. The bryoflora of Mt. Everett, Taconic Mountains, Massachusetts. 34–51
Miller, Norton G., Alan M. Fryday, and James W. Hinds. Bryophytes and lichens of a calcium-rich spring seep isolated on the granitic terrain of Mt. Katahdin, Maine, U.S.A. 339–385
Mittelhauser, Glen H. 117–185
Mixed Mesophytic Forest, Massachusetts 239–283
Mosses 34–51, 339–385
Motzkin, G. 239–283
Mount Desert Island, flora 117–185
Mt. Everett, bryophytes 34–51
Mt. Greylock, bryophytes 34–51
Mt. Katahdin, bryophytes 339–385
Multivariate analysis of *Cymopterus glomeratus*, formerly known as *C. acaulis* (Apiaceae). A, 359–385

Naturalization of *Campanula cervicaria*, bristly bellflower, west of Lake Superior. 417–419 (Note)
NEBC Meeting News 105–108, 232–237, 429–435
Neotropics 1–33
New Books 231, 336
New Brunswick, new species of seaweed 52–68
New England flora, wetland 386–407
New Hampshire: created wetland 87–102; *Hibiscus moscheutos* (Malvaceae) 414–416
New Mexico, ***Astragalus cliffordii***, sp. nov. 103–104
New native plant for New Hampshire, *Hibiscus moscheutos* (Malvaceae). A, 414–416 (New England Note)
New records, New Hampshire 414–416
New species: ***Sporocladopsis jackii***, sp. nov. 52–68; ***Astragalus cliffordii***, sp. nov. 103–104
Non-native flora, Massachusetts 284–329; annotated list of taxa 293–329
North American Apioidae 359–385
Nova Scotia, new species of seaweed 52–68
nrDNA ITS sequences, *Betula* 69–86
Nutrients 386–407

Order Form, Index to Volumes 76–100. 238

Paraphyly, *Betula* 69–86
Phylogenetics of *Betula* (Betulaceae) inferred from sequences of nuclear ribosomal DNA. 69–86
Phytodiversity, tropical montane 1–33
Phytosociology 186–230
Pilinia 52–68
Pine Barrens, bryoflora 34–51
Pitch pine 34–51
Plant communities 186–230; distribution map 191
Plant community structure in a freshwater tidal wetland. 386–407
Polyphyly, *Betula* 69–86
Prince Edward Island, new species of seaweed 52–68
Principal component analysis 359–385

Rare species, Maine 117–185; Acadia National Park plant families with > 20% of listed taxa as historic records 124
Rich fen 339–385
Rich mesic forests: Edaphic and physiographic drivers of community variation in western Massachusetts. 239–283; vascular taxa documented 276–282
